PROFESSIONAL SUMMARY

Python and Django developer with hands-on project experience building web applications and a computer-vision based automation system, backed by a Master of Computer Applications (94.5% CGPA). Brings two years of technical training experience in programming and web development, combined with practical skills in Django, MySQL, React, and Git.

TECHNICAL SKILLS

- Languages: Python, Java, C, C++
- Web & Backend: Django, HTML, CSS, JavaScript, React.js
- Database: MySQL
- Tools & Version Control: Git, GitHub

EDUCATION

Master of Computer Applications (MCA) Alagappa University, Directorate of Distance Education	CGPA: 94.5%
B.Sc. Computer Science Ultra Arts and Science College	2019 - 2022 CGPA: 89.6%

EXPERIENCE

Software Trainer — CSC Computer Education	Mar 2025 - Present
- Deliver training on Python, HTML/CSS, and database fundamentals, translating core programming concepts into practical exercises for students. - Prepare training materials and sample code walkthroughs to reinforce hands-on understanding of web development concepts.	
IT Trainer — G-TEC Computer Education	Aug 2024 - Mar 2025
- Trained students in C, C++, Java, and web development fundamentals through structured lab sessions. - Guided students in debugging code and troubleshooting logic errors during hands-on practice.	
IT Engineer — CADD Centre	Aug 2023 - Aug 2024
Supported IT infrastructure and day-to-day technical operations alongside software training delivery.	

PROJECTS

Library Management System — Django, MySQL
Designed and built a full-stack library management system, implementing book cataloging, member records, and issue/return workflows with a MySQL backend.
Face Attendance Management System — Python, OpenCV
Developed a face-recognition based attendance system using Python and OpenCV to automate attendance capture.
Floral Addition — E-commerce Website (Freelance)
Contributed to development of an e-commerce website as a freelance developer for Graypixel Tech, Sriperumbudur.
